

# LYNTOP

LYNTOP  
*Excellence for the leather*

## PRODUCT DESCRIPTION

Our latest high standard range of materials, conceptually innovative (Patent Pending). It is biodegradable and it is conceived to grant the best support to any kind of leather. It is very difficult to distinguish it from the real leather in terms of touch, softness and smoothness.

The material can be supplied with a TAG (EVA based adhesive) coating, allowing to maintain its softness characteristics and at the same time granting a perfect adhesion to most part of the materials.

## TECHNICAL DATA

LYNTOP	Weight (gr/mq)	Thickness (mm)	% by weight of the biodegradable fabric	% by weight of the biodegradable polymer
TOP 0000 87 050	230 +/- 10%	0,50 +/- 0,05	83%	17%
TOP 0000 87 070	450 +/- 10%	0,70 +/- 0,05	69%	31%
TOP 0000 87 090	500 +/- 10%	0,90 +/- 0,05	62%	38%

## BENEFITS

-  **Biodegradable**
-  **Softness**
-  **Natural touch**
-  **Patent pending**
