

MICRO-CEFALU'

*MICRO REINFORCEMENT
Coupling with
Tearproof Nylon*

PRODUCT DESCRIPTION

The articles MICRO-CEFALU' are mainly used for leather-goods industry and they are characterized by the coupling of microfiber with a tearproof nylon (weight 200 gr/sqm). The microfiber is normally used to give a better support and structure to the entire bag.

The strength of these articles is the soft hand together with a high mechanical strength resistance.

On request, they are available also with tearproof nylon of lower weight.

All the articles of this family can be laminated with TAG adhesive or with auto adhesive.

TECHNICAL DATA

MICRO CEFALU' version 1	
WEIGHT (gr/smq)	675 +/- 10%
THICKNESS (mm)	0,80 +/- 0,10 mm
COMPOSITION	2 Microfibers 0,3 mm Cefalù of 200 gr/smq
ADHESIVE	Auto adhesive

MICRO CEFALU' version 2	
WEIGHT (gr/smq)	515 +/- 10%
THICKNESS (mm)	0,80 +/- 0,10 mm
COMPOSITION	Microfiber 0,5 mm Cefalù of 200 gr/smq
ADHESIVE	Auto adhesive

BENEFITS

-  **High mechanical strength resistance**
-  **Softness**
